The following in regard to the death of Mr. Kane we take from the Bee Napoleon correspondence of the 14th: Michael Kane, a centenarian, died here yesterday morning. Her lecture at Powers Opera House last night, on 'Social and Political Life in Washington,' was one of the most interesting addresses ever delivered in the city. Mrs. Lockwood has been for twenty years a resident of Washington, a close and accurate observer of men and customs, and has had the best of opportunities to observe. She is acquainted with most of the great men of the country and has mingled much in public life. She has an agreeable manner of speaking, and like most women, can say a great deal in a short time."

Seventy-Eight—A Birthday Conviviality.

At the residence of her youngest daughter, Mrs. Russell Jones, Mrs. Martha McKnight celebrated the anniversary of her birthday—the 78th—on Friday the 11th of March, entertaining some chosen friends, who though not contemporary with her in birthdays, were nevertheless fully in accord to make the occasion one of great enjoyment long to be remembered. A pleasant feature of the occasion was the presence of Mrs. J. Cothran, her eldest daughter, recently from Kansas, the new "Eldorado" of the West. Mrs. McKnight is one of the early pioneers of Henry county, coming here in '50, and at this time in excellent health, as she evinced by doing the honors of a bountiful spread with the ease and activity of one in the bloom of life. It is something remarkable, something admirable in this day of early physical decline, to reach an age so ripe, in the full vigor of mental and physical faculties, and to be wide and highly esteemed as the subject of this notice. The presents were many and highly appreciated by the recipient. After the supper the company were entertained with music by her accomplished grand-daughter, Miss Nettie Jones. The party took their leave at 6 o'clock, wishing Mrs. McKnight many more happy anniversaries. A GUEST.

News from Over the County

LIBERTY CENTER.

Frank Reagis is the happy father of his first born, a fine girl. Mother and "papa" doing well.

Early Sunday morning last Chas. Karshner's house was discovered on fire by one of the neighbors. The alarm was promptly given, and the flames quelled with but a very slight damage. The fire originated from a stove pipe which projects through the roof, and is too short to reach the comb of the roof.

Our corporation, under the management of "the whisky council" shows up a healthier financial condition this spring than it has ever done before.

At the close of the last fiscal year, when the present incumbents took control, the corporation was in debt about \$150, upon \$70 of which was being paid 10 per cent. interest.

At the close of this year, the debt is wiped out and a surplus in the treasury of \$300. Neither have improvements been neglected, but as many and as good as have been made any previous year—proving conclusively that the charges of incompetency, the vile and abusive epithets which have been hurled at them by fools and bigots for resisting the demands of fanaticism and shallow-pated tricksters, have been as unmerited as they were groundless and malicious.

Saturday last was the day fixed for the election which was to determine whether our Union School District desired the incorporation of the new school building. They, as an indication that the proposition for a new building should carry, unopposed, proposed and agreed to call to their aid a "building committee," outside of themselves, as counselors, advisers and controllers, and that their services should be a gratuity. But instead of a committee they called to their aid a supernumerary in the shape of an attorney, who, he it said, volunteered the services of his ponderous brain "as a gracious gift" to the cause of education, positively agreeing that he was to receive no compensation for any advice or service he might be called upon to perform.

The violation of these conditions caused the people to demand an additional three members of the board. This reasonable request met with violent opposition by the three infallibles, but their arguments were as futile as they were childish. Liberty had an abundance of the board, carried by a larger majority than that for the building of the new house.

Rev. Gilbert is making a protracted effort in the U. B. Church at this place, in which he is endeavoring to show the sinner the "straight and narrow way" which leads by faith alone to mansions in the skies.

Liberty has had an abundance of "month religion" this winter, in which innate depravity, miraculous regeneration, vicarious atonement and endless punishment have been the burden of their song. The grand idea here, that punishment is reserved for a future state, but at the same time may be remitted by the blind acceptance of vicarious atonement at any moment before death, and that an exclusive reliance upon future punishment is the prime motive to a christian life, which consists of a life of sorrow and sanctimonious long-facedness here, instead of one of joy and cheerful aspect with hearty and worthy endeavor to do real good. When we sit and listen to the confessions of guilt and the greatness of the sins of those who claim to have received this faith, we are almost led to believe that we are among a band of outlaws rather than among kind and pleasant neighbors in whose integrity we might safely confide. It is to be sincerely hoped that if the sins which have been confessed in public this winter among the various denominations have been truly and successfully rolled over upon the cross of Calvary, they will never again be taken up or repeated by those who have gotten rid of them, and that if that love to God which has been awakened in the soul by a knowledge of the character of God, will not restrain evil doing, the fear of future punishment will, and the sincerity of their professions be made manifest in their daily walks, then will the minister's labor not have been in vain.

Robt. McCullough buried his oldest daughter last week. Truo.
